MEVOTECH

10th GEN HONDA ACCORD ENGINEERED SOLUTIONS

2018+ (10th Gen) Honda Accord

Hardware included for complete install

Mevotech Supreme chassis and control arms are the engineered solution for front end steering and suspension coverage on the 2018 and newer (10th Gen) Honda Accord.

- Greaseable sintered metal bearings and improved dust boot design optimize part service life
- Included hardware and pre-assembled components reduce installation time
- Engineered for increased durability under all service conditions

MEVOTECH
PREMIUM PROGRAM

2018+ (10th GEN) HONDA ACCORD FRONT END SOLUTIONS

Mevotech Supreme chassis and control arms are the superior engineered first-to-market solution for front end coverage on the 2018+ (10th generation) Honda Accord:

- Greaseable sintered bearings with SAE standard grease fittings replace the OE-style plastic bearing for a durable and serviceable alternative.
- Improved dust boot designs seal against contaminants.
- Pre-applied thread locker, pre-assembled components and hardware in the box reduce installation time.

BALL JOINTS

MS60525- FRONT LOWER
2018-2021 Honda Accord & other 2016-2021 Honda/Acura applications

STABILIZER LINKS
