FORD F-150
ENGINEERED AND PATENTED SOLUTIONS

2020-2009 Ford F-150
(12th and 13th Gen)

Hardware included for complete install

Mevotech TTX engineers innovative chassis, control arm and wheel end solutions for the 12th and 13th generation Ford F-150 platform.

- Patented greaseable, self-lubricating bearings and patented Locking dust boot technologies extend part service under all conditions
- Unique installation aids and hardware included in each box to reduce fitting time
- Ultimate Engineering – the most durable designs for Ford trucks and SUVs

ULTIMATE ENGINEERING

FORD F-150 FRONT END SOLUTIONS

Mevotech TTX parts feature patented technologies and application-specific upgrades for more durability:

- Patented bearing designs accommodate for increased loads and excel under high heat conditions.
- Patented Locking dust boot design seals against contaminants by mechanically integrating dust boot to housing.
- Enhanced forgings improve assembly strength and reduce stress and loading on components.
