CMS401269 CMS401270 CONTROL ARM ENGINEERED SOLUTIONS

2019 and newer Ford Ranger

Mevotech Supreme CMS401269 and CMS401270 are the newest engineered solution for extended service life front upper control arms on the 4th generation Ford Ranger platform.

- Greaseable self-lubricating sintered bearings improve and optimize performance under all service conditions
- Solid forged steel construction replaces
 OE hollow stamped steel design
- Superior part life and durability through innovative engineering

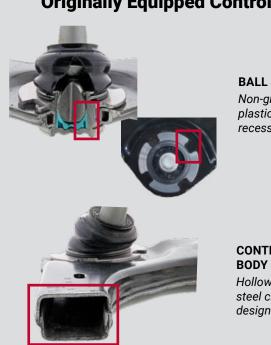

Labor Saver

X Factor

MEV TECH **PREMIUM PROGRAM**

CMS401269/CMS401270 **CONTROL ARM**

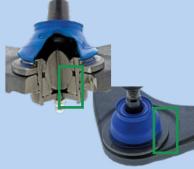

- Mevotech Supreme CMS401269 and CMS401270 are the first available aftermarket replacement front upper control arms for the 2019 and newer 4th generation Ford Ranger
- Engineered with design enhancements which improve part service and are a high-strength alternative to the OEM especially for a vehicle which may typically be used as a working truck
- LaborSaver[™] additions in the box make installation quicker for the Professional Technician

Originally Equipped Control Arm

BALL JOINT Non-greaseable plastic bearing with recessed flange

Mevotech's Engineered Solution

ENHANCED BALL JOINT Greaseable self-lubricating upper and lower sintered bearings are engineered to excel under high heat and high load conditions.

Flange recesses are filled-in

CONTROL ARM BODY Hollow stamped steel clamshell

SOLID FORGED CONSTRUCTION

Fully forged one-piece control arm body increases assembly strength and reduces stress on components such as the bushings and ball joint

SUPREME

Control Arms also feature:

- Greaseable self-lubricating sintered bearings
- Application-specific ball studs with added material
- Thicker forged construction
- Hardware and pre-installed components for quick fitting

| Part Number | Position | Application |
|-------------|-------------------|---|
| CMS401269 | Front Left Upper | 2022-2019 Ford Ranger (with aluminum steering knuckle) |
| CMS401270 | Front Right Upper | |
