Warning: Fraudulent Job Offers

Please be aware of fraudulent recruitment activities involving fake job offers and employment opportunities from individuals or organizations pretending to represent Mevotech. Please note that Mevotech does not charge any fees for job applications, recruitment process or employment offers. If you are asked to provide payment for any reason, or bank information, it is a scam. We only post job openings on our official website and trusted portals. Any communication with our Human Resources team will come from a @mevotech.com email address. Fraudsters may use legitimate looking emails or websites to gain access to personal information. Always check the email address and website carefully.

To protect yourself, always verify job offers by contacting the company directly through a known, legitimate number or email address. Never pay upfront fees for a job or provide personal information before confirming the job's legitimacy.

If you have been a victim of a job scam, please report it to your local police, as well as to the [Canadian Anti-Fraud Centre](#).
