MSNYLOC-90 NYLON LOCK NUT KIT

MSNYLOC-90

Never let a missing or worn fastener nut frustrate a repair again! Our 90-piece kit contains a full range of commonly-sized fastening nuts and is an essential part of the professional technician's tool box.

- Corrosion-resistant coating protects against long term degradation from rust and other contaminants.
- Nylon insert adds compression grip and Grade 10 hardware rating means higher strength.
- Easily replace single-use nuts with this full assortment of common sizes conveniently arranged in individual trays.
