TTX®

PATENTED & ENGINEERED

SOLUTIONS FOR 2022-1972 JEEP VEHICLES

MEVOTECH

THE MEVOTECH TTX ADVANTAGE

Maximum Uptime
Ensure peak on-the-road uptime for both solid axle and IFS vehicles.

Lower TCO
Drive down total cost of ownership with extended maintenance cycles and superior durability.

Faster, Easier Installation
Reduce fitting time with LaborSaver™ hardware and installation aids included in-box.

Optimum Performance
Mevotech TTX parts feature application-specific upgrades, such as:

- Patented self-lubricating sintered greaseable bearings which excel under high heat and high loads to provide extended service life.
- Patented multi-lipped dust boots which guard against contaminants and road debris.
- Enhanced strength forgings and improved bushing designs to increase assembly strength and minimize undesired loading.

BALL JOINTS

TXMS25574 – Front Upper
2022-2020 Jeep Gladiator JT
2022-2018 Jeep Wrangler JL/JLU

TXK3134T – Front Upper
2018-1997
Jeep Wrangler JK

TXMS25561 – Front Upper
2021-2016
Jeep Grand Cherokee

TXMS25575 – Front Lower
2022-2020 Jeep GladiatorJT
2022-2018 Jeep Wrangler JL/JLU

TXK3185 – Front Lower
2018-1997 Jeep Wrangler JK

TXMS25518 – Front Lower
2020-2011 Jeep Grand Cherokee

CONTROL ARMS

CTXMS251100/ CTXMS251101 – Front L/R Upper
2015-2011 Jeep Grand Cherokee

CTXMS251220/ CTXMS251221 – Front L/R Lower
2021-2017 Jeep Compass (MP)
2021-2015 Jeep Renegade

STABILIZER LINKS

TXMS258136 – Front
2021-2016 Jeep Grand Cherokee

TXMS258152 – Front
2022-2020 Jeep Gladiator JT
2022-2018 Jeep Wrangler JL/JLU

TIE ROD ENDS

TXMS25669 – Front Left Outer
2022-2020 Jeep Gladiator JT
2022-2018 Jeep Wrangler JL/JLU

TXMS25642/TXMS25643 – Front L/R Outer
2021-2017 Jeep Compass (MP)
2021-2015 Jeep Renegade

SINTERED GREASEABLE BEARINGS

TTX
Sintered upper and lower bearings

OE-STYLE
Plastic bearing

Patented self-lubricating sintered greaseable bearings *(US Patent N° 9296271 & 10527089)* provide extra endurance and durability to get more life out of parts, when compared to OE-style plastic bearings.

ENHANCED BUSHINGS

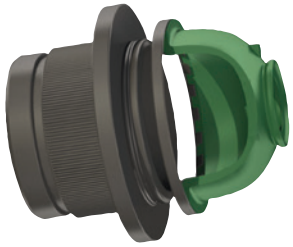

TTX OE-STYLE

TTX control arm bushings use high-grade rubber and a solid construction which fills in voids to better withstand vibration without cracking or tearing.

Knurling is added to the sleeve for added bite.

HIGH STRENGTH LOCKING BOOT

Boot is mechanically locked to housing, keeping grease in and contaminants out.

TTX patented *(US Patent N°9771971)* **high strength multi-lip Locking Boot** is designed as a permanent and superior method of protection against contamination.

ENGINEERED DESIGN

TTX

OE-STYLE

TTX parts are engineered to last. Application-specific material is added into critical areas on ball joints, control arms, stabilizer links and tie rod ends, which reduces flex and minimizes loading to prolong life.

TTX PARTS ALSO FEATURE

- **Advanced REPEL-TEK™ anti-corrosion protection**
- **Exclusive high-grade grease, pre-filled**
- **Easy-Snap™ cotter pin**
- **Integri-Boot™ technology**

LaborSaver®

EASY TO INSTALL

TTX parts are easy to install with hardware and install aids in-box, reducing total service time and cost.

Bootstaller™ makes fitting boots trouble-free where there is minimal space available

Coated Grade 12 and 12.9 installation hardware included

Installation Adapter allows for fast press-in of ball joint using standard tools

Installation Adaptor and Bootstaller™ included in-box where applicable

TTX ULTIMATE ENGINEERING

Choose TTX For coverage on these Jeep vehicles:
