2021-2013 CHEVROLET AND NISSAN COMPACT COMMERCIAL VAN ENGINEERED AND PATENTED SOLUTIONS

2021-2013 Nissan NV200

2018-2015 Chevrolet City Express

Mevotech TTX engineers innovative front end chassis and control arm solutions for 2021-2013 Chevrolet and Nissan compact cargo and passenger vans.

- Patented greaseable self-lubricating sintered metal bearings and locking dust boots optimize part service life under all conditions
- Unique installation aids and hardware are included in every box for a complete and trouble-free install
- Ultimate Engineering- the most durable designs for working and fleet vans

MEVOTECH

ULTIMATE ENGINEERING

CHEVROLET AND NISSAN COMPACT COMMERCIAL VANS

Mevotech TTX parts feature patented technologies and application-specific upgrades for more durable parts:

- Patented dynamic control, snap-in and directional self-lubricating sintered metal bearings which accommodate for increased loads and provide additional assembly strength.
- Patented locking boot design seals against contaminants·
- Improved and reinforced forgings and cross-sections to reduce flex and loading on critical component areas.

TTX PARTS ALSO FEATURE:

- Integri-Boot™ contaminant protection
- Repel-Tek™ anti-corrosion coatings
- Easy-Snap™ cotter pins
- Hardware included
- Thicker forged materials
- Install Aids included in-box
