TTX BRAKES

Pursuit Certified™ Formula

FORD POLICE AND EMERGENCY VEHICLES

Daily operating conditions for police and emergency vehicles can be demanding. That's why TTX Pursuit Certified™ brake pads are engineered with this in mind.

Pursuit Certified™ brakes deliver high frequency stopping power and low noise, along with strong fade resistance and high temperature performance. The below Pursuit Certified™ brake pad is accredited by LINK's Police Laboratory Brake Evaluation Program.

The Police Declaration of Conformity program uses standard laboratory test procedures (duty cycles replicating police driving patterns and SAE recommended practices) and engineering assessments and comparisons to the OE to qualify friction materials.

TTX BRAKES

Purpose-built for the demands of working and high-usage vehicles, TTX Brakes are premium aftermarket brake pads engineered for long-lasting performance.

A corrosion-resistant backing plate and burnishing layer ensure a fast, even bed-in, while multi-layer shims boost durability and quiet performance.

All TTX brake pads include a complete brake pad install kit - helping to restore brake system operation, optimizing pad life and reducing install time.
