MEVOTECH X-FACTOR BULLETIN

Products Engineered for the Professional Technician

Labor Saver™: 2022-2015 Ford Transit-150/250/350/350 HD Front Lower Adjustable Ball Joint

Brand	Supreme	Product	Ball Joint	Date	December 2022
Part Number(s)	MS40559				

The applications listed below are primarily utilized in a working capacity – loaded with tools, cargo or passengers. This may put additional strain on the suspension and cause an eventual out-of-specification alignment, leading to prematurely worn tires or other components.

Application(s):
2022-2015 Ford Transit-150
2022-2015 Ford Transit-250
2022-2015 Ford Transit-350
2022-2015 Ford Transit-350 HD

On the front suspension, adjusting toe can be easily achieved via pre-existing provisions. However, as per the factory service manual, camber can only be adjusted via shifting the front sub-frame; a time-consuming and possibly frustrating process that may not provide the required range.

Mevotech Supreme replacement front lower adjustable ball joint MS40559 is built to provide a camber range of -0.5 ° to +1 °. The Professional Technician can easily adjust camber on-vehicle until the desired specification is attained.

Additionally, MS40559 features a greaseable design which allows contaminants to be flushed from the assembly and new lubricating grease to be introduced. New- anti-corrosion coated hardware is included for a complete install. **See Figure 1**.

Figure 1. Mevotech Supreme front lower adjustable ball joint MS40559 allows for easier camber adjustment on a platform which otherwise is difficult to accomplish
