# Major Labor Saver™: 2015-2007 Mazda CX-9 Front Lower Control Arm Bushing Bracket Bolts

| Brand | Supreme | Product | Control Arms | Date | July 2021 |
|---|---|---|---|---|---|
| **Part Number(s)** | CMS761168/CMS761169 | | | | |

Due to road salt and corrosion, the bolts that secure the front lower control arm bushing bracket to the frame often become seized. When removing the control arm for replacement, these bolts may strip, break and/or become out of specification, and they should not be reused.

Mevotech Supreme front lower control arms CMS761168 and CMS761169 for the application below include replacement bolts for the bushing bracket as part of the hardware package. This reduces installation time and provides both an enhanced value and a durable repair option.

**Application(s)**
2015-2007 Mazda CX-9 FWD & AWD

Additionally, the control arm ball joint features a greaseable sintered metal bearing for increased part service life. New anti-corrosion coated hardware is also included for a complete install. **See Figure 1.**

**Figure 1.** Mevotech Supreme control arm CMS761168 with greaseable self-lubricating sintered metal ball joint and all necessary hardware for a complete install
