Products Engineered for the Professional Technician

Major Labor Saver™: Jeep Compass (MP Chassis) Front Inner Tie Rod End

Brand	Supreme	Product	Tie Rod End	Date	September 2021
Part Number(s)	MS25740				

As of this document's publication date, a front inner tie rod end is not available from the OEM as a separate replacement component for the application below. As such, to renew an out-of-specification inner tie rod end, the OEM repair method requires replacing the entire steering rack.

Mevotech Supreme, however, offers a replacement front inner tie rod end MS25740, to provide the Professional Technician with an alternative repair method to the OEM's, reducing installation time and complexity.

Application(s)

2019-2017 Jeep Compass (MP)

Additionally, Mevotech Supreme MS25740 features an anti-corrosion coated jam nut, pre-applied thread locking compound and steering rack spacers in the included hardware package, for a frustration-free repair. The spacers accommodate the various factory-equipped suspension packages, increasing part coverage and sub-model applicability. Refer to Mevotech X-Factor #MXF-20-033-01-01-E (Jeep Compass MP Inner Tie Rod Spacer Identification) for supplementary details on steering rack spacers. **See Figure 1**.

Figure 1. Mevotech Supreme front inner tie rod end MS25740 with included hardware (top) vs OEM steering rack (bottom)
