Products Engineered for the Professional Technician

Major LaborSaver™: 2009-2004 Mazda 3 and 2017-2006 Mazda 5 Front Lower Control Arm Bushing Bracket Bolts

Brand	Supreme	Product	Control Arms	Date	April 2021
Part Number(s)	CMS20432/CMS20433				

Due to road salt and other corrosion, the front lower control arm bushing bracket to frame bolts often become seized. When removing the control arm for replacement, these bolts may strip, break and or otherwise develop an out of specification condition and should not be reused.

Mevotech Supreme front lower control arms CMS20432 and CMS20433 for the below listed applications include the bushing bracket to frame bolts, as part of the hardware package. This reduces installation time and provides an enhanced value repair option.

Application
2009-2004 Mazda 3
2017-2006 Mazda 5

Additionally, the control arm ball joint is characterized by greaseable self-lubricating sintered metal bearings and a reinforced forging for increased part service life. New hardware is included for a complete install. Ensure to reference factory service manual for correct torque value and sequence. **See Figure 1.**
